### ELECTRIC CAR DELAYED.

Its Shipment Postponed a Month.  
Other Work About Completed.

The electrification work on the Bryan & College Interurban has been progressing rapidly during the days of good weather this month and with only a few days would have been completed and ready for a test. The cable, under the able direction of Howard Eaves of this city, has been strung rapidly and is now all but completed from College to Bryan.

Two crews have been at work several days leveling the track and putting in new cross ties, and the track is reported in much better condition. A letter was received some time ago from the Fairbanks-Morse Company of St. Louis, stating that their representative would leave St. Louis on December 15 for Bryan to finish installing the power plant and would connect it up ready for a test of the line before Christmas. The representative is expected to arrive some time this week.

A letter from the American Motor Car Company of St. Louis received by Mr. Gammill several days ago stated that the car to be used on the line would be shipped on December 15, but a telegram received yesterday stated the car would be shipped January 15, so at the present time the officials of the road are unable to state when the line will be in operation.

A car of poles have been ordered to be used in extending the electrification work to Villa Maria Academy, and the work will be pushed through as soon as these poles arrive.

### WASTED FLOWERS.

(With Thoughts of Harry Lee Mariner.)

Sometimes we don't appreciate  
A man until he's dead,  
Then when alas! it is too late,  
Heap flowers above his head.

A large bouquet placed on his bier  
May seem sweet to his friends,  
But, like dead leaves in autumn, sear,  
Whipped by thoughtless winds.

There is no fragrance in the rose  
That you can now bequeath,  
'Tis naught but dust, which now repose,  
The soul is not beneath.

The little verses that he wrote  
Are cherished now the more,  
Often will they be quote  
When present time is yore.  
—JOE MCGEE.
